Summary:

Three to two weeks prior to your event, we will start a campaign and hype the event online as a neverbefore kind of thing, encouraging guests to buy their tickets early if applicable. At the event, we will photograph guest entrance on the red, black or white carpet, do paparazzi. We make sure we capture most attendees. We will also do interviews with guests and some dignitaries, such as your sponsors if you have any, for an after-event summary video clip, if applicable. All pix taken will have your logo and VMP logo on them and will be saved on a CD and hosted online for your marketing or shearing purposes. Basically, we will make you and your event look "MULTI-BIG," as the next biggest thing happening. If your event is out of city or state, above a 2-hour drive, you will be responsible for our team's transportation and accommodations.

Let us take your event to the next level...
